Press Release

L53AC-C1 DRILLING UPDATE

CALGARY, December 29, 2017

Pan Orient Energy Corp. ("Pan Orient" or the "Company") (POE – TSXV) is providing an operations update.

Thailand

Onshore Concession L53 (Pan Orient 50% & Operator)

The L53AC-C1 deviated exploration well was drilled to a depth of 1,453 meters true vertical depth (1,789 meters measured depth) and encountered two zones of interest based on oil shows observed while drilling and open hole wireline logs. Upon further investigation of these two zones of interest through acquired pressure data and fluid samples, the zones were determined to be dominantly water bearing. Preparations are currently underway to plug and abandon the well.

The L53AC-C1 exploration will fulfill the \$600,000USD minimum annual exploration expenditure that is required to retain all the remaining acreage of the original concession, outside of existing production licenses.

The go forward Concession L53 activities will include a multi-well workover program that is expected to commence in late January 2018, and permitting/preparations for two additional exploration locations, one of which will be drilled in mid to late 2018.

Pan Orient is a Calgary, Alberta based oil and gas exploration and production company with operations currently located onshore Thailand, Indonesia and in Western Canada.

This press release contains forward-looking information. Forward-looking information is generally identifiable by the terminology used, such as "expect", "believe", "estimate", "should", "anticipate" and "potential" or other similar wording. Forward-looking information in this press release includes references, express or implied, to drilling plans in Indonesia and Thailand and regulatory approvals.
